Auto Repair Focus is devised and implemented by Phil Curry: a journalist with 14 years' experience in the automotive industry - five of which have been in technical and aftermarket roles. Alongside this, Phil has run his own websites for over ten years, with links to major automotive manufacturers.

Who are we?

We are Auto Repair Focus - the UK's newest media platform for the automotive aftermarket. Our website is read by garage owners and technicians, bringing them the latest news, reviews, features and technical information through both written and video pieces.

We are passionate about the industry, and therefore passionate about informing readers about what is going on in the aftermarket and the wider automotive world. Keeping things online allows the latest news to be digested quickly, the latest products to be promoted and features to be archived ready to read again when the time requires. It also allows us to take advantage of social media, bringing readers from across the internet to the site.

Auto Repair Focus intends to be what the industry needs; a magazine on the internet. It will not produce only the news or regurgitate stories, but regularly deliver features, technical pieces, videos and more. We intend to work with aftermarket suppliers, as well as garages and industry professionals, to provide engaging content on a digital platform.

What we do

'A website is only as good as its content allows' - A philosophical line we've created and one which we intend to stick to. The best thing about being online only is that Auto Repair Focus can reflect market trends without a set plan.

We have devised a range of features, the like of which you would only normally see in print. Instead, we will bring them to readers in an online format, with links, contact details and social media positioning.

Business

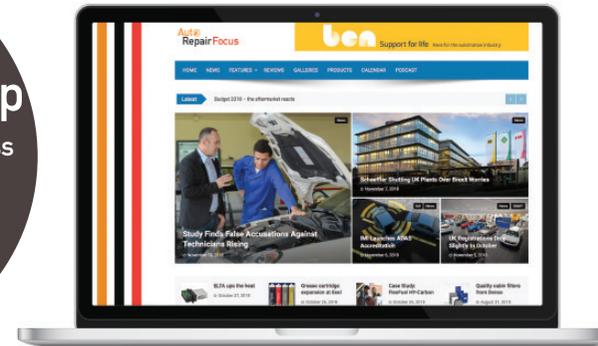

Making the most of your garage, shop or mobile service

Technical

Written by experts, teaching readers how to get the best out of their equipment

In the workshop

Recognising garages across the country, speaking to owners and celebrating achievement

Out and About

Visiting the companies that supply and service the aftermarket

Calendar

Shows, training events and other events promoted on our website to boost attendance

Products

Highlighting the latest products, from tools to parts and everything in between

Newsletter and Podcast

We need to offer something direct to garages, something that can get news, features, videos and advertising directly in front of a technician or garage owner.

This is what the Insight is, a direct to email newsletter that technicians can sign up to receive fortnightly.

Insight gives you an opportunity to get your advert, message, video or event directly in front of those who matter in the servicing industry, with direct links to your product, service or website. Our subscriber numbers are growing all the time, so contact us for more information.

We know there is a need to be different and fun is good, but what else can we offer? How about a fortnightly audio bite of discussion, news and interviews with figures from the industry plus even more exclusive content?

Podcasting allows us to bring our audience closer to our work. It also gives the opportunity to bring your thoughts on the market, your products and your abilities from the page to the microphone. It is something that can be popped on in the background, listened to at leisure.

In addition, it allows us to feature you guys more. We will conduct interviews and play them out on the podcast, and can carry your promotions and advertising through sponsorship opportunities. 'The Tune up, in association with [insert company name here].' sounds pretty good doesn't it?

The Tune up is currently available on iTunes and Google Play.

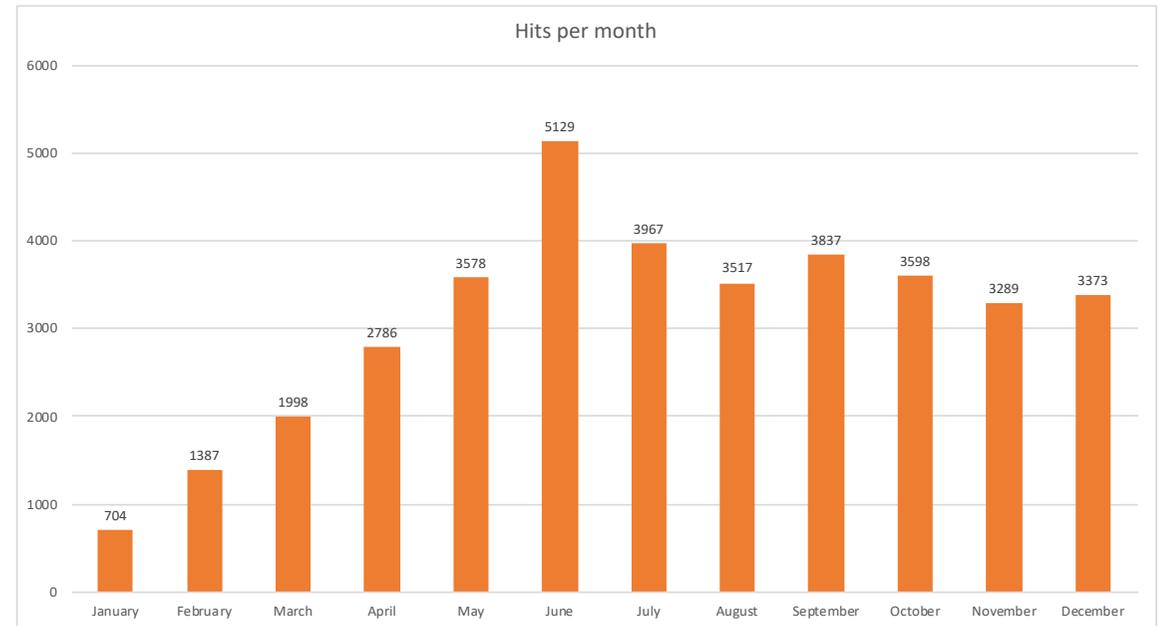

Stats

We are still new, having been only running for a year. Yet in that time we've seen some impressive growth in our viewing numbers, a trend we expect to continue in 2019.

We have plans in place to promote Auto Repair Focus, to drive traffic even further, with a strong target in place for average hits-per-month by the year end. This is a journey, and we'd like you to be a part of it.

We'd also like to highlight that we prefer tea over coffee. Therefore, we thought we should show you the number of cups of tea consumed while working on Auto Repair Focus each month.

If you would like to meet with us, it's milk and one sugar - how do you take yours?
